About me

Simon Fraser University student in Interactive Arts & Technology with a Computing Science minor, driven by the intersection of design and technology. I bring experience in UI/UX design, industry-standard user research methods, and web and mobile development. My combined skillset brings a rare combination of design sensibility and technical fluency, geared towards creating digital systems that are both technically sound and deeply human-centered.

Skills

Highlights

- UI/UX design
- UX Research
- High fidelity prototyping
- Web application development
- Mobile application development

Software Proficiency

- Figma
- ProtoPie
- Visual Studio Code
- Android Studio
- Adobe Illustrator
- Autodesk Fusion

Technical Skills

- HTML & Pug (Jade)
- CSS & SCSS
- Tailwind & Bootstrap
- Javascript & Typescript
- Node.js
- C++, Python, Java, Kotlin

Project Experience

UI/UX Lead | Dostemana Hackathon

March 2026

- Led product design discussions alongside 2 developers to create a social library tool.
- Served as lead designer of the application's UI and branding.
- Pitched and presented the product through a business pitch to judges.

Web Developer & UI/UX Designer | YumMeal *Internet Computing Technologies Course*

Jan 2026 – Apr 2026

- Designed and developed a web application to help users find and save recipes.
- Implemented frontend and backend using Node.js, Mongoose, and MongoDB, with API integration, user authentication, and admin functionalities.

Project Experience *(continued)*

UX Researcher | SFU Library

Jan 2026 – Apr 2026

Design Evaluation Course

- Conducted usability research to evaluate SFU Library's equipment borrowing system.
- Collaborated in a team to devise, plan, and coordinate research strategies to collect quantitative and qualitative data.
- Analyzed research data to uncover design insights and usage patterns.
- Produced a structured evaluation report compiling findings for SFU Library to review

Mobile Developer & UI/UX Designer | SFU Course Planner

Sep 2025 – Dec 2025

Mobile App Programming Course

- Led UX design discussions in a team of 4 to produce a mobile application helping SFU students plan their degree.
- Developed a mobile application in Kotlin using Android Studio and Coursys (SFU's REST API) integration.

Prototyper & UX Researcher | Bamboozled Escape Games

Jan 2025 – Apr 2025

Interaction Design Methods Course

- Conducted user research with Bamboozled Escape Games, a local escape room business.
- Synthesized research findings into affinity diagrams, personas, and user journey maps.
- Designed a solution proposal with a supporting design rationale to streamline staff workflow.
- Developed and implemented a mobile prototype of the proposed solution.

Other Experience

Tutor | Kumon

Sep 2025 – Present

- Assisted students aged 5–15 in mathematics and reading comprehension.
- Worked within a team to maintain a welcoming and structured classroom environment.

Peer Educator | FIC Peer Education

May 2024 – Aug 2024

- Tutored first-year Fraser International College students in computing science, calculus, communications, and English course material.
- Communicated effectively with international students across language barriers.

Education

Bachelor's of Science | Simon Fraser University

Aug 2023 – Present

Major in Interactive Arts & Technology

Minor in Computing Science
